DETAILED ACTION

This is a Notice of Allowance for Application no. 09/960,218 in response to the After Final Amendment filed on August 7, 2007.

Allowable Subject Matter

Claims 7, 8, 12, 13, 17-24, 26-28, 30, 31 and 34 are allowed.

The following is an examiner's statement of reasons for allowance: After a further search and a thorough examination of the present application and light of the Applicant's arguments and in light of the prior art made of record, claims 7, 8, 12, 13, 17-24, 26-28, 30, 31 and 34 are found to be in condition for allowance.

The claims are allowable over the prior art of record since the cited reference taken individually or in combination fails to particularly disclose the computer-readable medium and system for merging paths as claimed.

The closest prior art (US Patent 6,404,455 to Ito et al). discloses a similar system for tracking and merging paths. However, Ito is silent on the use of an exclusion region as required by claims 7, 26 and 28. Ito is further silent on the specific use of a time-space bubble as claimed in claim 20. These features taken with the other features in the claims teach over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
